CIO-SP3 Corporate Capabilities

Jacobs Technology Inc. is the advanced technology arm of Jacobs Engineering (NYSE: JEC), one of the nation's largest engineering and technical services-only companies. With more than 70+ years of experience supporting Government and commercial clients, we have earned a reputation for excellence and outstanding technical and managerial achievements in quality, performance, and safety. Jacobs Technology comprises more than 11,000 employees and produces annual revenues exceeding $2B.

We provide a wide range of advanced technology services to Government and industry in four market areas: test & evaluation engineering, operations & maintenance; scientific, engineering, and technical services; design/build and operation of test facilities; and enterprise information services.

Service and trust are at the heart of our relationships with our customers, and we develop, build, and nurture these relationships by demonstrating integrity, exercising sound judgment in our business and personal dealings, and living up to our commitments – doing what we say we will do. Sustained superior performance is a hallmark of Jacobs as demonstrated by our high customer evaluation scores and high percentage of contract rewins. At Jacobs, more than 90% of our business is for repeat clients – the result of established partnering relationships with many companies and government organizations.
