Hotfix – ResourceList for Externals

After installing the Resource List for Externals application follow these steps to update the utility. This update fixes the issue where ResourceList for Externals does not properly create the AutoCAD based user profile.

1. Download the RegManConsole.exe file

2. Place the RegManConsole.exe file in the following location your computer (overwrite the current file):

   C:\Program Files (x86)\Bentley\ProjectWise\bin
