Importing license file

Please ensure that you are updated to the latest CONNECTION Client version before importing the checked out license file provided to you. Also, make sure you have ProjectWise closed when you import the license.

On your system tray, click on Connection Client and navigate to the license tool.

Browse to this location to open Connection Client:

C:\ProgramData\Microsoft\Windows\Start Menu\Programs\CONNECTION Client\CONNECTION Client\Bentley Licensing Tool

If you are not seeing the folder, check to see if you have Hidden Items enabled on your file explorer.
